CELLULAR HANDSET & CHIP MARKETS '08

An In-Depth Analysis of Cellphones & Chips

Author:

Carter L. Horney

Editor & Contributor:

Will Strauss

Report No. 8030
May, 2008

About the Author

Carter L. Horney, a recognized authority on microprocessor and DSP implementation in telecommunications, is the author of this report. Mr. Horney is an independent consultant and Forward Concepts Associate specializing in semiconductor product strategy and market planning. He was formerly Division Planner for Rockwell International's Digital Communications Division and earlier Strategic Marketing manager for Rockwell's Semiconductor Products Division. Mr. Horney was responsible for the product planning, which led Rockwell (now Conexant Systems) to dominate the worldwide FAX and high-speed modem chip market. He was appointed a Rockwell Engineering Fellow and received many commendations for outstanding achievement in Computer Architecture, Engineering, Technical Marketing, Product Planning and Customer Relations. Mr. Horney has a B.S. in Mathematics and Physics and an M.S. in Mathematics from Western Illinois University.

About the Editor

Will Strauss, President of Forward Concepts, is the editor and significant contributor for this report. Mr. Strauss is internationally recognized as the leading authority on markets driven by digital signal processing (DSP), and wireless is the largest DSP market.
