WILL STRAUSS

Report No. 6010
February, 2006

ABOUT THE AUTHOR

William I. (Will) Strauss, the author of this report, is the president of Forward Concepts Company, market research consultants specializing in DSP and related markets. Mr. Strauss is an internationally-known market research analyst and is considered an authority on DSP market trends. He has degrees in Electrical Engineering (Georgia Tech) and Business (Southern Methodist University) and has worked in electronic design, marketing, sales and market research positions. He was formerly Executive Vice President of In-Stat, Inc. and earlier Vice President of Market Research for Integrated Circuit Engineering (ICE) Corp. Mr. Strauss held earlier positions with General Instrument Microelectronics, Digital Equipment Corporation and Collins Radio Company. Mr. Strauss is the author of many articles on DSP markets and is widely quoted on semiconductor market trends.
